CW1 Group Report | 3D Interactivity Media Product

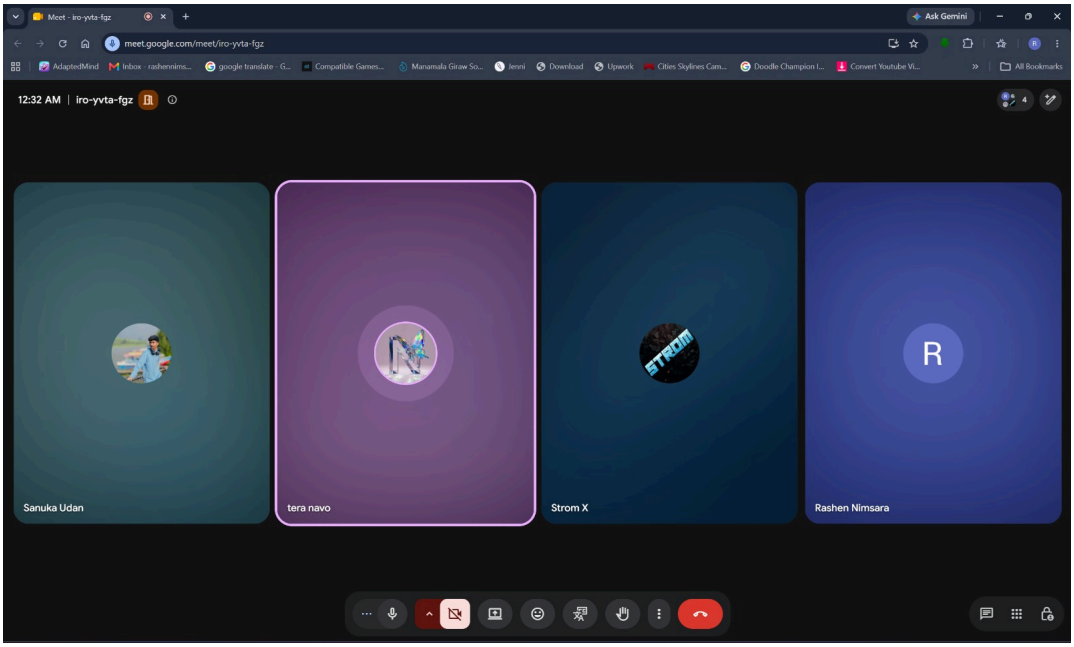

Group Work and Planning

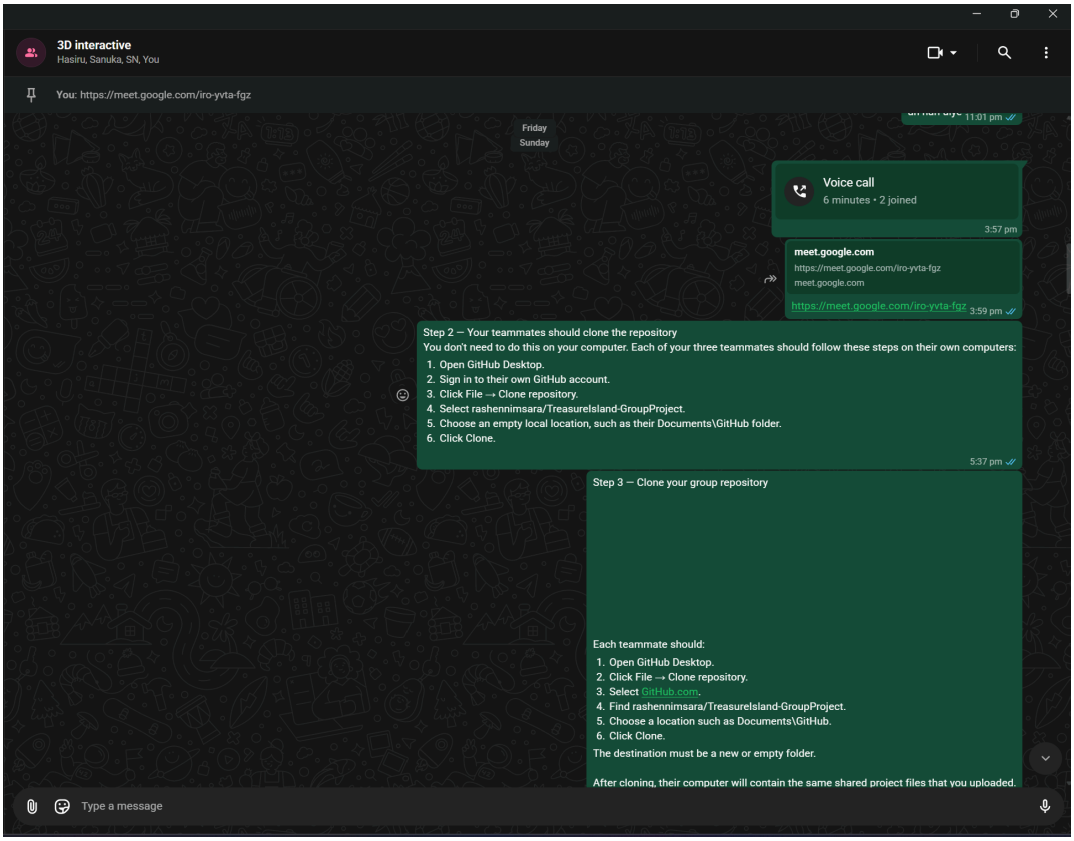

Item	Details
Module	5MMCS007W – 3D Interactive Media Product
Group Number	Group No.05
Project title	Lost Island | Island Treasure Hunter
Group Members	Sanuka Udan - 20240970 | w2181823 Savindi Nawarthana – 20241374 | w2181807 Hasiru Yasod- 20240969 | w2181832 Rashen Nimsara - 20240724 | w2181815
GitHub repo	https://github.com/rashennimsara/TreasureIsland-GroupProject
Course Work Submission Date	Thursday 12th November of 2026 at 17:30:00

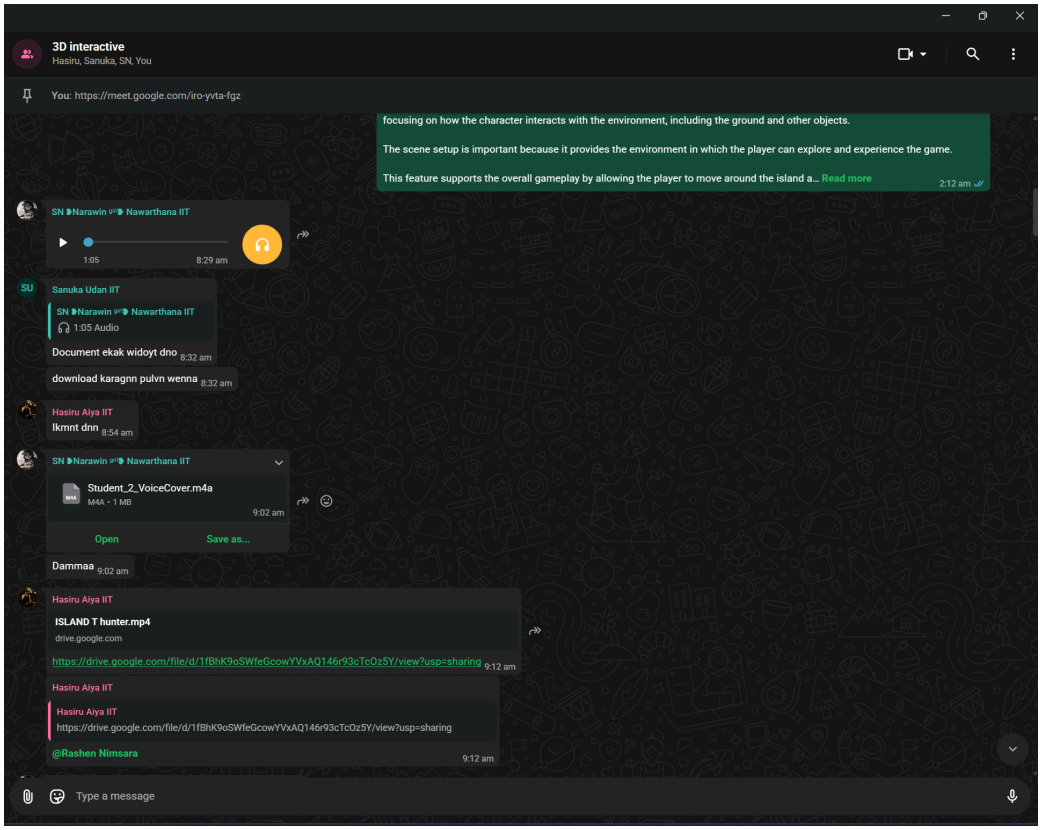

1. Workload Metrix

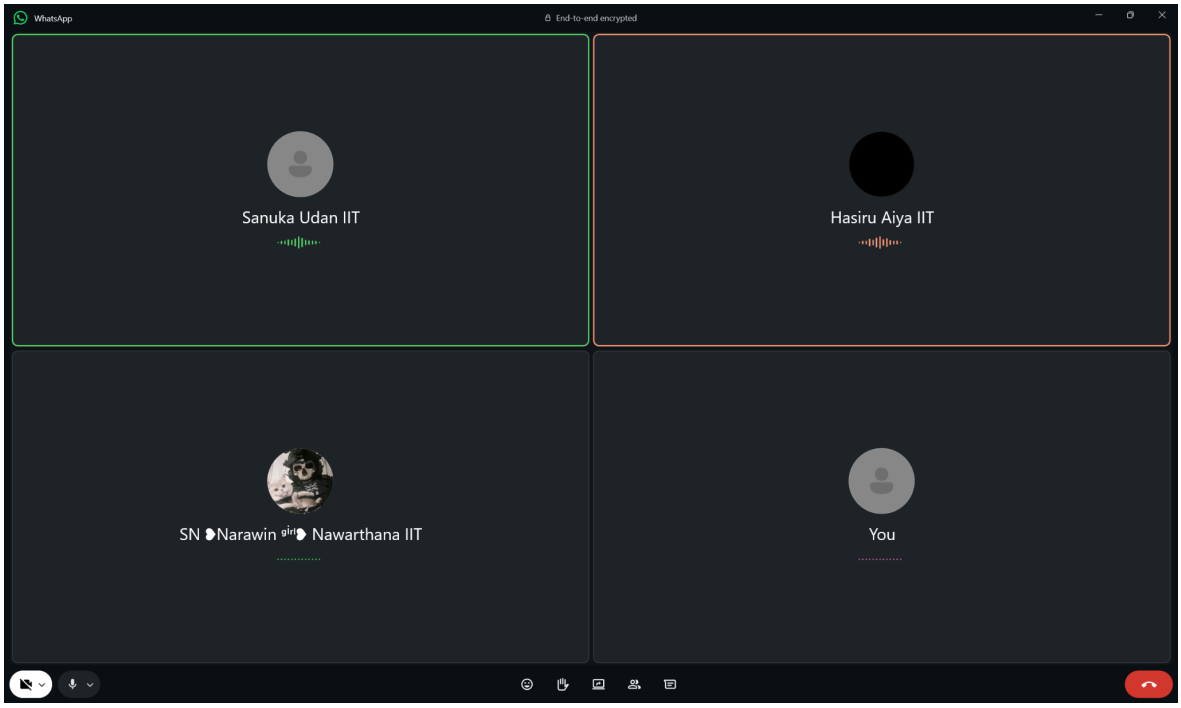

Group Member	CW1 Required Tasks	Additional Project Responsibilities
Member 1 Environment & Physics, 1 Lego brick RB Physics controller system	LEGO minifigure with animation and Unity UI button control). LEGO brick Rigidbody physics controller .	Creating the Treasure Island environment, ground, terrain, LEGO objects, physics components and scene layout
Member 2 Mouse Interaction & UI	LEGO minifigure with animation and Unity UI button control. LEGO brick mouse input controller .	Developing mouse-based object interactions, user interface elements and gameplay controls. Supporting the explosion-force slider interface.
Member 3 Character Controller & Animation	LEGO minifigure with animation and Unity UI button control. LEGO brick Character Controller input system .	Developing player movement, character animations, walking and standing behaviour, and character integration into the island environment.
Member 4 Triggers & Exploding Brick Array and sliders (Group Leader)	LEGO minifigure with animation and Unity UI button control . Brick Key trigger and Exploding Brick Array.	Developing the cave entrance trigger, breakable stone wall, E-key interactions, treasure chest interaction, prefabs and testing. Managing GitHub and group integration. Supporting the explosion-force slider functionality.

focusing on how the character interacts with the environment, including the ground and other objects.
The scene setup is important because it provides the environment in which the player can explore and experience the game.
This feature supports the overall gameplay by allowing the player to move around the island a... Read more
